What/Why:

Júlia Tygel is a young Brazilian pianist and composer. She recently recorded her first CD - "Júlia Tygel - Entremeados", with financial support of the prefecture of her home town in Brazil. It presents her arrangements for Brazilian songs, including composers like Tom Jobim, Chico Buarque and Edu Lobo, and compositions in majority for piano and cello duo, produced by Benjamim Taubkin (Brazil). Her compositions and arrangements mix the influences of the classical musical education with the rich Brazilian popular music.
